---

### TECHNICAL SKILLS

JavaScript, jQuery, NodeJS, ExpressJS, AngularJS, HTML5, CSS3, PostgreSQL, Firebase, Git, NPM, RESTful APIs, Ajax, Heroku, Apache Cordova, Ionic, SQL Server, Informix, PowerShell, EJS, Handlebars.js, Bash, Bootstrap, AJAX

---

### PROJECTS

- **Legendary-Journey** - A gamified job performance and project tracking application. Built using PostgreSQL, JavaScript, Node.js, Express.js, Materialize, PivotalTracker API and Heroku. Personally responsible for the whole application.
- **Altruist** - A volunteer to non-profit event planning application. Built on a team of two using PostgreSQL, JavaScript, Node.js, Express.js, EJS, and Heroku. Personally responsible for the volunteer sections of the application.
- **Artemus** - A mobile scavenger hunt application. Built on a team of three using AngularJS, Ionic, Apache Cordova, PostgreSQL, JavaScript, Node.js, Express.js, and Heroku. Personally responsible for the back end API.
- **Brief Pin** - A Pinterest style news curation application to aid lawmaker curators in disseminating news articles to Senators and Congressmen. Built on a team of 5 during a hackathon using PostgreSQL, JavaScript, Node.js, Express.js, Python, and Handlebars.js. Personally responsible for the core back end, 1/2 of the routing logic, and some of the front end pages.

---

### RECENT EXPERIENCE

**Middleware System Administrator**, *TSYS Acquiring Solutions, Tempe, AZ - 2003 - 2016*

- Wrote and executed automation scripts for top-down and delta software deployment, which increased deployment speed and quality
- Wrote and executed DML SQL for troubleshooting, reporting, and deployments on Informix and SQL Server 2012
- Integrated new AppDev teams into corporate SDLC after M&A (setup version controls, standardized deployment process, created and published maintenance schedule, identified dependencies, build and execute application install plans)

---

### EDUCATION

**Web Development Certificate**, *Galvanize, Inc., Seattle, WA - 2017*

**Powershell**, *Interface, Phoenix, AZ - 2016*

**Electronic Engineering**, *DeVry, Atlanta, GA - 1998*
