
Taylor Short

Web Developer

(425) 785-0816

treddshort@gmail.com

[GitHub](#) || [LinkedIn](#)

TECHNOLOGIES

Front-end: Javascript, HTML5, CSS, React

Exposure to: SQL, MongoDB, Node.js

Other Tools/Libraries: Gatsby.js, Git, Github

PROJECTS

Tune Jams - (*React, HTML, CSS*) [Source Code](#)

- A Spotify-like web application built using React.js
- Features a fully functional player bar and volume slider

Cryptocurrency Ticker - (*React, CSS*) [Source Code](#)

- A web application for viewing the data of 3 different cryptocurrencies
- Built using a REST call to parse JSON data and get API data from CoinMarketCap

EXPERIENCE

Fast Water Heater, Bothell, WA - *Install Coordinator*

September 2015 - PRESENT

- Working with Home Depot customers to coordinate the installation of water heaters

LDS Church, Orlando, FL - *Ecclesiastical Volunteer*

November 2006 - November 2008

- Two years of ecclesiastical volunteer service in Orlando, which required 60+ hours a week of specified labor and human relations work (all in the Spanish language).

EDUCATION

Brigham Young University-Idaho, Rexburg, ID - *International Business*

April 2010 - April 2015

I majored in International Business with a minor in French. I am also fluent in Spanish.

Bloc.io - *Full-stack Software Development*

April 2018 - Present

An at-your-own-pace, immersive online program, aimed at equipping students with career-ready computer science and web development skills.
