- ReactJS, MobX, Redux, NodeJS, REST (including Firebase), EnzymeJS, SocketIO, and GraphQL

Experience

The Regis Company

11/2017 – Present

Software Engineer II – Zach is a developer on an Agile team that works with the Big 4 Consulting Firms

- Creates engaging frontend experiences for leadership trainings by leveraging ReactJS and MobX
- Leverages UX background to advocate for more collaboration across teams
- Represents tech team in design sessions with clients which has contributed to a 20% reduction in COGs without sacrificing user and client expectations

Fox Works

06/2019 – Present

Software Dev/Designer – Zach is a jack of all trades for a consulting firm (PO, Developer, and Designer)

- Creating dashboard using React, Redux, and ChartJS to showcase user data trends
- Improved the authentication process through performance and user interaction enhancements for an SPA on a project involving ReactJS, Redux, and REST (Firebase)

Charter Communications

07/2017 – 11/2017

Web Developer – Zach was a front-end developer on an internal team focused on automating testing

- Created entire front end for a business tool using ReactJS, Redux, NodeJS, and Semantic UI
- Advocated for users by incorporating modern UX principles into development process
- Connected to backend to frontend using RethinkDB, SocketIO, and MongoDB

Education

B.S. in Computer Science

Minor in Technology, Arts, and Media

University of Colorado

Boulder, CO
